About prepaid cards

What is a prepaid card?

A prepaid card is a pay-as-you-go payment card.

Cardholders 'load' money onto the card, which can then be used to buy goods and services, or withdraw from cash machines, in the same way as debit cards. Prepaid cards do not have an overdraft facility.

What are the benefits?

For cardholders, prepaid cards are a simple, safe alternative to carrying cash and a great way to shop online. They are also great budgeting tools, and - with the right card - are low cost.
